

Virtual Healthcare Services

The Netflix of Healthcare

Do you find healthcare costs to be a burden? Are you tired of waiting for long periods in germ-infested waiting rooms to receive your medical treatment?

What if there was a better way?

For a small monthly fee, you can access licensed medical providers at any time you need them. This can prevent you from having to take time off from work or cut your vacations short. We understand that healthcare expenses and long wait times can be stressful. That's why we offer a hassle-free solution to get the care you need, when you need it.

The Virtual Advantage

We provide on-demand care services, treating nearly 85% of common illnesses and injuries that can be treated with a prescription. Moreover, a year-long study by Humana indicates that medical outcomes with telehealth are just as good as, if not better than, in-person care.

Easy, Accessible, and Affordable

- › Sore throat on the weekend? Fever at 2 a.m.? Providers are available 24/7/365 to treat common illnesses and minor injuries.
- › Speak to our licensed therapists when you need someone to talk to.
- › Get advice, prescriptions, consults for weight loss, men's and women's health.
